

Speakers

Dr. Ginni Mansberg | Evening Plenary - Seasonal Respiratory Diseases

Ginni is a GP, TV presenter, podcaster, speaker, author and columnist. She has a General Practice in Sydney's Sans Souci, where she specialises in women's health.

The author of [Save Your Brain!](#), along with 6 other books, Ginni is the "Sunrise GP" on Channel 7, the host of Australian TV shows, "Embarrassing Bodies Down Under" and "Medicine or Myth". She is a podcast host on "Help I have a teenager" on the Mamamia Network, "Things You Can't Talk About on TV", on Audible as well as "Drivetime Medical", an educational podcast for health care professionals. She has a supervisory role in the Discipline of General Practice at the University of Notre Dame Sydney Medical School.

Apart from her medical degrees, Ginni has a Graduate Diploma of Journalism and is a Graduate of the Australian Institute of Company Directors. She is co-founder and Medical Director of ESK Skincare www.eskcare.com and Auroracare P/L both cosmeceutical skincare companies, as well as [Don't Sweat It](#), a company delivering workplace education and policy development around peri and menopause. She is also Non-Executive Director of a variety of not-for-profit organisations including The Immunisation Coalition, The Jodi Lee Foundation and is a founding member of the Asia Pacific HPV Coalition.

Dr. Jessica Kaufman | Vaccine Hesitancy Session

Dr. Jessica Kaufman is a Senior Research Fellow in the Vaccine Uptake Group at the Murdoch Children's Research Institute. She is an expert in vaccine communication and the social and behavioural science of vaccination. Some of her current projects include evaluating the impacts of vaccine mandates in Australia, developing an Arabic-language online game to reduce vaccine misinformation, and training community leaders to be vaccine advocates in the Asia Pacific region. Jessica is an NHMRC Emerging Leader Fellow and an E. H. Flack Foundation Fellow. She is the Deputy Chair of the Collaboration on Social Science and Immunisation (COSSI).

Dee Verma | Managing RSV in Primary Healthcare Settings

Dee is a paediatric Immunisation Pharmacist who is currently working at a tertiary teaching hospital in Melbourne. She manages the hospital-wide monoclonal antibody therapy program for the prevention of Respiratory Syncytial Virus (RSV) in high-risk infants. She graduated with a Bachelor of Pharmacy (Hons) from Monash University in 2019 and completed her Graduate Certificate in Pharmacy Practice in 2020. Dee is currently undertaking a Master of Public Health at Monash University. Her primary interest lies in ensuring that high-risk patient cohorts are protected against vaccine-preventable diseases. She has a passion for promoting vaccine awareness and understanding amongst fellow health professionals and works with other hospitals and professional organisations to promote a vaccine-literate health community.

Speakers

Dr. Ali Drummond | Breakfast Plenary - Culturally Safe Approach to Immunisation Practice

Dr Ali Drummond is a Meriam and Erubam man of Zenadh Kes (Torres Strait) and Wuthathi man from far north Queensland. He was appointed as the CEO of the Congress of Aboriginal and Torres Strait Islander Nurses and Midwives (CATSINaM) in April 2023. A highly experienced leader in the sector, Dr Drummond has more than two decades of professional experience in Aboriginal and Torres Strait Islander health, clinical practice, policy, research, and teaching and learning.

During his career, Dr Drummond has focussed on strengthening the health workforce to ensure a culturally safe health system. He has contributed to an innovative approach to nursing education in his role with Queensland University of Technology (QUT's) School of Nursing, and as inaugural co-Director of Indigenous Health within QUT's Faculty of Health.

Dr Drummond holds a Bachelor of Nursing Science and a Master of International Public Health. His recently awarded PhD critically examines how Australian nursing academics collaborate with Indigenous peoples in developing, delivering, and evaluating nursing curricula concerning Indigenous peoples' health and wellbeing.

Dr Drummond is a Fellow of the Higher Education Academy, a member of CATSINaM and the Torres Strait Islander Nurses Indigenous Corporation, and Chairperson of the Lowitja Institute Research Committee.

Catherine Keil | Travel Health and Vaccinations Session

MN(NP) RN BSc(Hons) Dip TM(RCPSG) CTH® SCHP FFTM (ACTM)

Catherine is a Nurse Practitioner in Travel Health and Immunisations and consults from the Barossa, South Australia. She has over 25 years' experience in travel medicine including working for Emirates Airline in Dubai for 10 years where she was instrumental in setting up a travel health clinic for the crew and families. In 2006 she completed the Diploma in Travel Medicine from the Royal College of Physicians and Surgeons, Glasgow, UK, and in 2014 completed the ISTM Certificate in Travel Health. In 2019 she became a Fellow of the Faculty of Travel Medicine (FFTM), Australasian College of Tropical Medicine and is the past Chair of the Travel Health Nurses of Australia and New Zealand (THNANZ) group. She is the current Co-Chair of the ISTM Nurses Professional Group Steering Council.

Angela Newbound | Plenary - NIP and Priority Populations & COVID

Angela is an Immunisation Education Consultant based in South Australia and has been delivering immunisation education and clinical support to General Practice and other health professionals for over 23 years. She delivers clinical competency immunisation training workshops for Pharmacists and continues to support immunisation providers through her role as the Immunisation Coordinator at the Adelaide Primary Health Network. She is a member of the Immunisation Coalition and provides clinical oversight of the PneumoSmart Vaccination Tool.

GSK is now a fully focused biopharma company with a new purpose: to unite science, technology and talent to get ahead of disease together. We aim to impact the health of 2.5 billion people over the next 10 years. We will prioritise innovation in vaccines and specialty medicines, maximising the increasing opportunities to prevent and treat disease. For more information on GSK, visit: [Home | GSK AU](#)

We are an innovative global healthcare company, driven by one purpose: we chase the miracles of science to improve people's lives. Our team, across some 100 countries, is dedicated to transforming the practice of medicine by working to turn the impossible into the possible. We provide potentially life-changing treatment options and life-saving vaccine protection to millions of people globally, while putting sustainability and social responsibility at the center of our ambitions.

Moderna is a leader in the creation of the field of mRNA medicine. Through the advancement of mRNA technology, Moderna is reimagining how medicines are made and transforming how we treat and prevent disease for everyone. By working at the intersection of science, technology and health for more than a decade, the company has developed medicines at unprecedented speed and efficiency, including one of the earliest and most effective COVID-19 vaccines. Moderna's mRNA platform has enabled the development of therapeutics and vaccines for infectious diseases, immuno-oncology, rare diseases and autoimmune diseases. With a unique culture and a global team driven by the Moderna values and mindsets to responsibly change the future of human health, Moderna strives to deliver the greatest possible impact to people through mRNA medicines.
