Audiologists, General Practitioners, other qualifications may apply, but would need to demonstrate relevant workplace capability.</p> <p>It is also recommended that entrants have: A minimum of six months' employment or experience working with clients in a clinical environment and high language, literacy, and numeracy levels – sufficient to interpret medical documents/referrals/ requests, written medical notes and reports.</p>
<b>TERMS AND CONDITIONS</b>	<p><a href="http://www.benchmarkgroup.com.au/terms-and-conditions">Visit benchmarkgroup.com.au/terms-and-conditions</a> <a href="#">View Student Handbook</a></p>

## Course outline

The Course in Ear Wax Removal (Irrigation) aims to provide students with the skills and knowledge to safely undertake an ear assessment, and understand the key concepts, complications, safety, and referral processes in the practice of ear wax irrigation.

## Course outcome

Upon successful completion of the program students should have the ability to:

- Understand the basic anatomy and function of the ear in relation to wax management
- Identify the basic landmarks of the tympanic membrane
- Assess the ear and define the appropriate wax management decision
- Identify the risks and risk management considerations of ear irrigation
- Recognise complications and manage accordingly
- Understand the competencies required for successful ear irrigation
- Identify appropriate documentation and follow up processes

## Course content

The face-to-face workshop involves anatomy and physiology refresher, principles of wax irrigation, and practical activities including condition recognition, ear health assessment, otoscopy, and irrigation techniques for wax removal.

Students work with peers in the classroom to conduct simulated examination as part of the practical skills activities.

Practice and assessments are performed on a mannequin, and the workshop focuses on wax removal using irrigation including the legal and consent issues involving ear irrigation.

## Course structure

The face-to-face workshop involves lecture and practical activities involving condition recognition, ear health assessment, otoscopy, and irrigation technique for wax removal.

Students work with peers in the classroom to conduct simulated examinations as part of the practical skills activities. All irrigation practice and assessments are performed on a mannequin.

The workshop focuses on wax removal using irrigation including the legal and consent issues involving ear irrigation.

## Bundle

Purchase our Course in Ear Wax Removal (Irrigation) 11030NAT (\$500) and our Hearing and Ear Health Foundations for Healthcare Professionals Course (\$95) in our Bundle and **SAVE \$95.**

- Separate total cost \$595.
- Bundle cost: \$500.

## About accessIQ

We are paving the way for innovative and easy online learning through our bespoke online course and assessment platform, accessIQ.

- Study anywhere, anytime
- Edit saved answers, review before submitting
- Live student console – tracks assessment, enrollments and waitlists
- Access statement of results and resource library.

# About Benchmark Group

Benchmark Group is a Registered Training Organisation (RTO 21824) delivering a range of clinical skills courses to meet the needs of a broad range of health professionals across Australia.

As an RTO working in the health sector, our focus is on the delivery of courses and programs designed to provide healthcare professionals with the opportunity to expand their skills and careers. We concentrate on skills and knowledge that can be immediately implemented in a vocational context.

Skills learnt today can be used tomorrow.
